Profile

Software Engineer who loves music. I started to learn programming back in 2019 when I found about [The Odin Project](#), since then I've worked as a Full Stack Developer using technologies such as .NET, Scala and NodeJS.

I pay close attention to detail.

Currently I focus on mastering my skills in JavaScript / TypeScript and Java.

Employment History

Full Stack Engineering Analyst, Accenture, Remote

October 2023 — April 2023

As a fullstack developer for an insurance company in the United States, my responsibilities involved managing the backend data sources, ensuring the integrity and accuracy of the company's data, and fixing any errors that arise. I primarily worked with PostgreSQL, Node, GraphQL, and React.
